The Social Ch

The Project: The Social Channel is a blog of which the premise is to interview and write feature articles on young people making a difference in their industry.

When you access the home page of the blog the title will type out across the top middle part of the screen.

Once it has been type the rest of the articles and navigation in the footer will appear

The header is non-sticky when you scroll down.

A maximum of six items will show on the home page.

This is the most recent six blog posts (shown in next frame).

The images will have a hover effect whereby they enlarge and slightly zoom in when hovered over.
